The Art of Synergy

Everything You Need for a Winning Team Activity

Challenge:

You want to stage a memorable team activity that is easy to deliver, fun, engaging and appeals to a wide range of ages and group sizes.

Solution:

PaintFest® is a two-hour event that arrives in a kit, and you select the level of on-site support you think will work best for your group.

Every PaintFest® event includes all the materials and support you need to be successful. For over 25 years the Foundation for Hospital Art has delivered team activities that are simple, scalable, impactful, fun and easy.

How It Works

The Foundation for Hospital Art is a non-profit organization that uses art to bring comfort to people in healthcare facilities around the world.

Teams of 12 complete a pre-drawn, color-coded painting during a two-hour event. The completed painting is donated to a healthcare facility to brighten the lives of patients. The sponsor is acknowledged on each painting and the expense is tax-deductible.

Since 1984 approximately one million volunteers have created over 40,000 paintings for more than 4,000 hospitals in 195 countries.

PaintFest® events appeal to everyone. It is an inclusive activity, so people of all ages can participate—without training and without limitations.

Bonding: Team members focus on the goal at hand, with plenty of time to talk, laugh and build closer relationships in a positive environment.

Scalability: The activity can include any number of participants, from dozens to thousands, without adding complexity or hassles.

Venue: PaintFest® kits allow staging anywhere, even outdoors, so there are no buses required for travel to an off-site location.

Expenses: The cost per participant is reasonable and expenses may be treated as tax-deductible charitable contributions.

Community: Paintings brighten the lives of others and enrich the environments of local hospitals, clinics, assisted living facilities or schools.
